**Departmental
Findings of Fact and Order
Part 70 Air Emission License
Administrative Revision**

After review of the Initial Part 70 License application, staff investigation reports and other documents in the applicant's file in the Bureau of Air Quality, pursuant to 38 M.R.S.A, Section 344 and Section 590, the Department finds the following facts:

I. Registration

A. Introduction

FACILITY	Greenville Steam Company (GSC)
INITIAL LICENSE NUMBER	A-261-70-A-I
LICENSE TYPE	Part 70 Section 502(b)(10) Change
NAICS CODES	221119
NATURE OF BUSINESS	Electric Power Generation
FACILITY LOCATION	Spruce Street, Greenville Junction
DATE OF INITIAL LICENSE ISSUANCE	August 7, 2003
DATE OF AMENDMENT ISSUANCE	May 27, 2004
LICENSE EXPIRATION DATE	August 7, 2008

B. Revision Description

GSC is required by Condition (14)(O) of Air Emission License A-261-70-A-I to perform stack testing for lead by June 1, 2004. GSC had originally intended to operate the entire month of May 2004 and to perform stack testing during that time. Due to a lack of fuel availability, GSC has not operated at all during May 2004 and a future start-up date is still uncertain. Therefore, GSC has requested an administrative revision to their license to extend the deadline for stack testing for lead to October 1, 2004.

Departmental
Findings of Fact and Order
Part 70 Air Emission License
Administrative Revision

ORDER

Based on the above Findings and subject to conditions listed below, the Department concludes that emissions from this source:

- will receive Best Practical Treatment;
- will not violate applicable emissions standards
- will not violate applicable ambient air quality standards in conjunction with emissions from other sources.

The Department hereby grants the Administrative Revision A-261-70-B-A subject to the conditions found in Air Emission License A-261-70-A-I and in addition to the following conditions:

The following shall replace Condition (14)(O) of Air Emission License A-261-70-A-I:

- O. Compliance with the Lead ton/year emission limit shall be demonstrated by stack testing prior to October 1, 2004 and record keeping including the amount of Construction and Demolition Debris fuel fired. Stack testing shall take place under representative Construction and Demolition Debris fuel firing. Additional stack testing for lead shall be performed upon request by the Department. [MEDEP Chapter 140, BPT]

DONE AND DATED IN AUGUSTA, MAINE THIS DAY OF 2004.
